

A graph showing the relationship between  $C, I$  (Y-axis) and  $V_{rms}$  (X-axis). The X-axis ranges from 0.8 to 3.2 with major ticks every 0.2 units. The Y-axis is labeled  $C, I$  with an upward arrow. A bell-shaped curve is plotted, centered at  $V_{50} = 2.0$ . The curve is flat at  $V_1 \approx 1.4$  and  $V_1 \approx 2.6$ . A vertical dotted line marks the peak at  $V_{50}$ .
